### About the Book

A new Digital Technology-borne social formation is taking place all over the world. New world is termed as 'Virtual World'. Family, Community, Society are disappearing in cloud fast. Democracy and democratic principles of equality, freedom and fraternity too are dying all over the world. Iron-chain slavery of yester years is being replaced in new digital technological forms. Some of these are called as 'Electronic Surveillance', 'Biometric', 'CCTV', 'Pegasus', etc., etc. Newer forms of crimes, often described as 'Cyber Crime', newer forms currency called 'Crypto-Currency', newer forms of banking called 'Online Banking', etc., have taken over all the old practices. Home cooked food are being replaced by 'Online Food' and school-college-university education and research by 'Online Education and Research'. Increase in rapes, murders, violence are accompanied by unprecedented rise in hunger, poverty, unemployment and disease too are spreading with alarming speed. Fear- psychosis and mental disorders are growing fast. The positive side of digital Technology is that it has enabled small number of people to become sovereign of the world. Question to ponder is: What is the future of 7 billion population of the world? This book attempts to seek answer to it. Value of the volume lies in stimulating new thinking on newer forms of Nature-Human-Society dynamics.
